You're eyes are closed  
You're next to me  
Our fingers touching  
Don't fall a sleep  
I want to see you nude in the moonlight  
The shore is empty, this time its right

Cause you are the one for me  
Baby can't you see  
We were meant to be  
This is destiny

Our lips are tender  
Our bodies close  
Our hearts reaching  
Who could give the most, thoughts are dancing slow  
Our thighs now meet, our souls are singing, harmony  
sweet

Yes you are the one for me  
We were meant to be  
Love is in so deep  
This is destiny

Love is so sweet
