Music is the song I'm singing
Music is the way I'm giving
Music gives my life the meaning
Music makes my world go round

Music is the healer for me
Music is the love that I need
Music is a friend I turn to
Music understands me

Chorus: Yeah

Music is the space I pray in
Music is God blessing me
Music is the place I go to
When the world is stressing me
Music is the sea I swim in
Music waves wash over me
Music is the point I dream of
When I close my eyes to sleep

Chorus: Yeah

Music takes me to a world
Where I am happy, I am free
Music is the One I turn to
Music lives inside of me
