My brother
I'm writing this
To tell you I love you
You showed me what true friendship means

This life is rough
But knowing you has made me better
You shared your strength

And I want you to know
Brother
You help me to grow
I thank you
Where ever you go
Always be/stay true

Sitting here
Thinking of
Tough times I came through
You were there, helped me make it through

This life gets rough
But knowing you has made me stronger
You shared your faith
