Chorus

(My dear, have no fear)
And my momma said
(My dear, have no fear)
Love will keep you fed
(My dear, have no fear)
But don't you be mislead
(My dear, have no fear)
Don't you talk about it
Be about it
F-ck them haters
Make 'em follow

Main Verse

Comin' up
I stayed locked in my room
Try'n to write about the sh-t that kept me confused
My momma never had a good man in life
For all you muthaf-ckaz want'n to know why I'm a dyke
All I saw was her shot and abused
Skin more colors than the rainbow's hues

At 7yrs

I could think real deep
Like how to put a crazy n-gga 6ft deep
While you stand'n there shocked and amuzed
Grab a pen, sucka
Let me give you the news
The whole world is a stage to me
And the price that you pay is who you chose to be
If I get a mill or don't get a dime
Like David Helfgot, b-tch
I'm still gone shine
And if GOD choose to put me through the fire
I hope he understand
I couldn't live as a liar

Chorus

(My dear, have no fear)
