Brother moon

Shine down your light on us tonight

Show us the love of God

Sister sun you bring out the day

You're shining the light of God on your face today

Maker of it all

You provide it all

In You we live

In You we move

In You we have our being

You're glorious

You're holding us together all together

Brother wind your clouds and your storms

You're breathing the breath of God in your lungs for us

Mother earth, you're giving us life with God's open
hand you always provide

For us

Maker of it all

You provide it all

In You we live

In You we move

In You we have our being

You're glorious

You're holding us together all together

You are everything good, you are everything beautiful

You are everything, you're everything
