Feels good living in sin when I'm with you
We cheat, we lie, we beg for more abuse
Spit, don't talk, stand up, don't walk
Make enemies when you should not
Fight, don't love, drive drunk, don't trust
Don't give a fuck at all

We go, explode
Like pyro tonight
Burnin like pyro tonight

We're bad baby it hurts to be so cruel
We're automatic twisted angry fools
Kill, tattoo, get high on glue, smoke yourself blind
Don't tell the truth
Fight, don't love, drive drunk, don't trust
Don't give a fuck at all

We go, explode
Like pyro tonight
Burnin like pyro in the night

We go, go, go, blow up the world we know
Like pyro tonight
Burnin like pyro tonight, tonight

We go, explode
Like pyro tonight
Burnin like pyro in the night

We go, go, go, blow up the world we know
Like pyro tonight
Like pyro
