Yeah

Pep rally  
the pep rally  
Time's up.

Let me turn around and cap all this shit  
inside out  
everything i do is important  
need a girl like Natalie Portman  
so everyday I feel like I'm fortunate  
And more than  
Another man comes for the win  
No tie like an ascot  
All the people wanna be mascots  
But I'm on fire, match box  
That's why  
When I'm in the game  
People wanna run around and just pass the rock  
I got buzz for light years  
Aren't you the astronaut?  
Well yeah that's me  
Stock is up SNP  
Pop up on your browser like "Who Doogie Howser riffs  
that be?"  
Ooh damn what I do now  
but it never feels bad cause I'm over stated  
They say that I talk a bunch  
Well that's how Oprah made it  
You was open plated  
Made my racket, put your bracket on  
When I'm in the league Imma be the top seed  
to compete for every single track I'm on  
Green and yellow jacket on  
RJ make the master  
Yeah I pray you like this  
I don't need a pastor  
Cause Noah Leed here  
When I make the team Imma lead the cheer  
Hop up at that tunnel 'til I disappear like casper

Look at what we started now  
Make you a believer

We ain't ever done till we cleanin out the bleachers  
Gym floor scuffed up stompin out my sneakers  
Only thing you hear when we bangin up the speakers  
is we started it, yeah, yeah, we started it  
ooh we started it, yeah yeah we started it  
ooh we started it, yeah yeah we started it  
ooh we started it

What you really got never off that beat  
"Hold is grand"  
Gotta keep grindin like coffee beans  
Had a lot of people tryin to come my way  
But it never really mattered what they offered me  
Office scene, Michael Scott, wanna be the boss but I  
might just flop  
Had a weird feeling in my gut that I didn't really like  
So I had to go and knife it up  
JK I could wife you up promise I ain't trippin  
Hoodie Van Halen baby I am always riffin  
That music go off of my dome  
Just like time I'm off it alone  
Off on his own but no, Kevin McAllister "shuttered"  
myself like an Avatar wait  
Nobody wants an amateur, so I keep keep keep keep at  
it  
Till I'm Dwight Howard status just the center this magic  
just the Senate I could draft it and politic the lobbyist  
ooh ain't it obvious that Hoodie came around and just  
bodied shit  
Bed, Bath "not a twist" stead fast "lotta quick"  
Serve but I got me many more Andy Roddick shit  
Met a genie gotta wish that this gon' be our season  
Sellin out the seats for a reason, come and see

Look at what we started now  
Make you a believer  
We ain't ever done till we cleanin out the bleachers  
Gym floor scuffed up stompin out my sneakers  
Only thing you hear when we bangin up the speakers  
is we started it, yeah, yeah, we started it  
ooh we started it, yeah yeah we started it  
ooh we started it, yeah yeah we started it  
ooh we started it

I'm in the zone  
that Hoodie zone
