I got a fake ID and a checklist
It goes never meet a girl on Craigslist,
And never spend your money on a necklace
Three square meals homie gotta have breakfast
Real shit, she be paying for the date
I be on my Will Smith, enemy estate.
Keep my friends close, keep my enemies away
Let the repel it, oh they so jealous

I'mma do shit that just piss them off
Say you never heard me, it's your loss.
They biting on my freestyles
They told me make my money frontin' on that weed
style
I tell them i be too over it and i gave my brother my ID
She independent, but these bitches never find me
I hope they don't find him though
Cause they be knockin' on my door,
now they're looking through my window.

Tell me what you really want from me
Point blank, no discussion
Close mouth, close mouth, ow
I'll give it to you no interruption
And tell me one time that you want me
I promise that i won't say nothing
Sh- shut it up, sh- sh- shut it up
I'll give it to you no interruption.

In your home, in your home, oh
On the phone, on the phone
All alone, all alone, oh
I'll give it to you no interruption.
In your house, in your house, oh
On the couch, on the couch,
Name the time or the place or the function,
I'll give it to you no interruption.

Talking money i don't really give an eff man
I got power like a motherfucking x man
Married to the game, but I'd rather be the best man
You be on that same shit, all day s pen

Band new kicks while he's shopping at a Payless
Do it on my first take skipping all the
See me you can be me, but I end up on the A-list
I'm chilling with Rhianna in the KKK mans

I'm just kidding I'm a white, kid, hi kids
Anderson silver i hit him with the high kicks
Never been realer you nothing but a sidekick
Oh you on Myspace? that used to be my shit
So who's killing the game, who's the culprit?
I be working like I'm
Now I gotta bunch of new friends and they're all rich
Got blazers, all rich.

Tell me what you really want from me
Point blank, no discussion
Close mouth, close mouth, ow
I'll give it to you no interruption
And tell me one time that you want me
I promise that i won't say nothing
Sh shut it up, sh- sh- shut it up
I'll give it to you no interruption.

In your home, in your home, oh
On the phone, on the phone
All alone, all alone, oh
I'll give it to you no interruption.
In your house, in your house, oh
On the couch, on the couch,
Name the time or the place or the function,
I'll give it to you no interruption.

I know it's hard to give you everything you want from
me
When I'm running on empty
I know it's hard to be the type of dude you want to be
Cause your girlfriend wanted me (where'd she want it
though?)

In your home, in your home, oh
On the phone, on the phone
All alone, all alone, oh
I'll give it to you no interruption.
In your house, in your house, oh
On the couch, on the couch,
Name the time or the place or the function,
I'll give it to you no interruption.
