Baby here we come,
Were gonna step on you,
Just stay out of our way now.
Listen we don't care,
Keep your business to yourself,
Youve got too much to say now.
You are mine (you are mine),
Anytime (anywhere, anytime),
There's no time like the right time.
Baby we aint sure,
That we like your attitude,
Don't you act like a child now.
We aint here for long, ---
No mistakes for being rude,
Service me with a smile now.
You are mine (you are mine),
Anytime (anywhere, anytime),
There's no time like the right time.
Make a sign (make a sign),
Cross that line (anytime, anywhere)
There's no time like the right time
And that's now.

Baby watch your step,
Or well have to mess you up,
You better do what I say now,
We might live longer that way now.
But for what.
You are mine (yes you're mine),
Anytime (anywhere, anytime),
There's no time like the right time.
Make a sign (make a sign),
Cross that line (anywhere, anytime),
There's no time like the right time,
Like the right time,
Like the right time,
Like the right time.
Like the right time x6 till fade
