[Intro]

Every time I roll the dice I never seem to win  
And I'm always at the airport when my ship is coming in  
And all I learned from the Queen of Hearts is how it  
Feels to cry, cry, cry  
Until your touch started lightin, me up just like the  
Fourth of July

Better knock on wood  
It never felt so good  
I can't believe you're mine  
Guess we all get lucky sometimes

Since I found you baby  
I keep coming up aces every time  
Every card I play seems to fall in line  
Guess it goes to show  
Hey we all get lucky sometimes

Every gambler knows to win you've got stay in the  
game  
And to give in to a losing streak you only have yourself  
To blame  
I was so far down on love I wouldn't even try, try, try  
So what did I do to win a girl like you, guess we all get  
Lucky sometimes
