Part time love is the life around here  
We're never done!  
We're at square one

Life ain't been out here in a minute

Here in the round our whole life  
You weren't too long  
Chaos is been round for a minute  
' Bible did though  
(Save yourself first!  
Save yourself first!)  
And when life fakes mine like a cane  
(Save yourself first!  
Save yourself first!)

Part time love is the life round here  
We're never done!  
Everything feels like touchdown on a rainy day  
Part time love is the life round here  
We never done!  
Everything feels like touchdown on a rainy day

We're at square one  
And you waited too long

Every time I land to London  
I land a blink in all of my mind  
I plan to plan it back after playing back show every  
time.  
I'm round about, I bought a round of English' for my  
palls'  
I think my English get around real bad  
Cause it start bitch and I'm real, real bad  
No freaky bitch do, but I'm real, real good  
' but I still feel bad!  
I'mma still feel addict  
I wonder of God is still magic  
I wonder if not still magical  
I'm under the North and still have it!

I run around wondering,  
Wondering life round here  
When life ain't really around here  
Sometimes, sometimes I go round here.

Part time love is the life round here  
We never done!  
Everything feels like touchdown on a rainy day  
(Save yourself first!)  
We're at square one

I ain't been out here in a minute  
But here we've been at the whole life  
My flesh went to the people and'

Part time love is the life round here  
We never done!  
Everything feels like touchdown on a rainy day  
(Save yourself first!)  
We're at square one
