(Nichole Nordeman)

How did I get locked up inside?  
What's this that renders me paralyzed?  
I lost myself in small pieces  
It happened over time

I traded love for a heavy chain  
Another link every other day  
I pulled it up and down a mountain  
It made me want to sayâ€¦

No more chains  
No more chains  
Big and small, watch them fall away  
No more chains  
Big and small, watch them fall away

I wonder now if the choice was mine  
The door was open, I walked inside  
Nobody had my arm twisted  
Nobody made me stay

The face of freedom can show up small  
A tiny crack in a prison wall  
A song that rises up from silence  
A voice that wants to sayâ€¦

I should let you give me wings  
I should let you set me free
