I'll put a message in a bottle and i'll throw it across the sea
your the lock and included is the key
along with a dozen x's and o's
Lord knows that you cant get enough of those
your superkalafragelisticexpialadociously cute
sweeter than a 12 pack of juicy fruit
surreal, but i know this isnt a dream
we go good together just like coffee and cream

great googali-moogali
is she a movie star?
and is your dad a robber?
i saw him go
way up high
past the sky
he grabbed the stars and put their twinkle
in your eyes

i'll put a message in a bottle and i'll throw it across the sea
your the lock and included is the key
along with a dozen x's and o's
Lord knows that you cant get enough of those
your superkalafragelisticexpialadociously cute
sweeter than a 12 pack of juicy fruit
surreal, but i know this isnt a dream
we go good together just like coffee and cream

Lyrics

hold up wait a minute
hold up wait a minute
hold up wait a minute

sprinkle some love in it

seal it with a kiss and a tinybit of
