Yeah...
Oh...yeah

Verse 1
I'll take your hand tonight
As you take mine...
And we'll run away together
Runaway forever
Just you and me
Oh, that's how it's gonna be...

You can make me smile
Whenever I'm feeling down
You'll always be there to hold me tight
You'll always stick around

Chorus
Whenever we're under the stars
And I'm wrapped up in your arms
You know I'll always have your heart
Yeah, whenever we're together
We forget about the others
I wish these moments would last forever
But oh, I know,
We're inseperable...

Verse 2
You said, "We could run forever,"
If I wanted to..
Said, "We'll always be together,"
It's just me and you

And whenever the sun is shining,
There is something inside me
That makes me feel so happy
Because, you're with me

Chorus
Whenever we're under the stars
And I'm wrapped up in your arms
You know I'll always have your heart

Yeah, whenever we're together
We forget about the others
I wish these moments would last forever
But oh, I know,
We're inseperable...

Oh, we're inseperable
Yeah, yeah

Bridge
You'll be there with me
Through it all
I know you'll never let me fall

You can make me smile
Whenever I'm feeling down
You'll always be there to hold me tight
You'll always stick around

Chorus
Whenever we're under the stars
And I'm wrapped up in your arms
You know I'll always have your heart
Yeah, whenever we're together
We forget about the others
I wish these moments would last forever
But oh, I know,
We're inseperable...
Oh, we're inseperable
Yeah, inseperable
