Verse # 1

I wish that I could hold you...Oh, Just one more time...One more time to touch your face, kiss your cheek...just one more time... I can't express how much my heart aches for you... how much I wanna be touched by you. Oh, my sweet baby...if I could just feel you...Oh, I wanna feel you...if only just one more time.

Chorus

God, please help me, in this moment... this moment I have to go thru... Let me lean upon you... God, please help me make it thru... I feel that there's just no way... I feel so weak and feeble... I feel like I can't carry on... This time I really need you... like I've never needed you before... Oh, God, Please... come and fill this aching heart... I don't want to ache like this anymore.

Verse # 2

I miss you when I wake up...Because you're no longer here...I miss you every hour of everyday...I find, I'm always in tears...When night time starts to roll around...How much I so wanna be with you...Oh, my sweet baby...if I could just hold you...I wanna hold you...if only, just one more time.

Chorus

God, please help me in this moment... this moment I have to go thru... Let me lean upon you... God, please help me make it thru... I feel that there's just no way... I feel so weak and feeble... I feel like I can't carry on... This time I really need you... like I've never needed you before... Oh, God, Please... come and fill this aching heart... I don't want to ache like this anymore....I don't wanna ache like this...anymore.
