Right here in my head, you float around and back  
again  
I want it in my hands spinning round and round  
You can't break this 'cause it's always in my mind

[I'm so into you]

One thought of you and I'm so right  
And it's alright  
Always  
Mmmm.... Always  
True love never fades  
Always  
Love always  
Always

Lonely doesn't exist because of the memories I have  
here  
They grow stronger and more and with all that I do  
I'm gonna hold on 'cause you keep me so alive

[I'm so into you]

One thought of you and I'm so high  
One thought like this and it's alright  
True love never fades  
Always...  
Always

True love never fades  
Always...Mmmm....always  
Always  
Love always.... Love always

Oooh yeah... always mmmm always  
Yeah... always... Hey...  
Love always....mmmmmm  
Love always  
Love is always  
Heyyayay
