I noticed you were gone, I'm sure I can't go on
Fighting just to breathe, the scars remind me still
That what we had was real. Your love was all I believe
Are you feeling better now that we ain't together
It's like I'm standing on the edge of a cliff and you're
pushing me

I'm dying, can you save me, it's an emergency?
Pull me out of this coma?
Fighting, stay alive and you're the remedy?
Baby don't say its over.?
My life has been so crazy, I need a girl that can
understand me?
Pull me out of this coma.?
Remember out at the club, kissing and touching and so
in love?
Pull me out of this coma.??

I see your face taunting me
It haunts me in my dreams?
Your love is all I see

I never say never, or did you mean forever, yeah?
When you packed all your shit up and drove away from
me

I'm dying, can you save me, it's an emergency?
Pull me out of this coma?
Fighting, stay alive and you're the remedy?
Baby don't say its over.?
My life has been so crazy, I need a girl that can
understand me?

Pull me out of this coma.?
Remember out at the club, kissing and touching and so
in love?
Pull me out of this coma.??

There's a hole my heart and it's growing, baby, love
can't be replaced
I've tried every drug and makes me sick, my heart can
keep up the pace

Baby yeah... It's just you and me baby

I think of you every day, baby

I'm dying, can you save me, it's an emergency?

Pull me out of this coma?

Fighting, stay alive and you're the remedy?

Baby don't say its over.?

My life has been so crazy, I need a girl that can
understand me?

Pull me out of this coma.?
