La la (x 9)

L.A. robotic
Cause I am all around the world
(It's hypnotic)
Every kind of girl
You know we write them in all our songs
(The way the rhythm goes)
California's where they come
(L.A. robotic)
She's got your heart stopped
And she keeps it with the rhythm
She knows which way
She's going
And what she wants
And now get it
Miss L.A.
She's living and she's lying
And she swears by that gucci
If she leaving
She dyieng
Cause you can't get into partier
Unless your name is official
And if you ain't running
From the paparazzi
Then they will probably forget you
That's why they call the L.A. girls

Chorus:

Bathing in the california sun (L.A. girls)
Man I think I gotta get me one (L.A. girls)
There's nothing like them L.A. girls
It's hypnotic
L.A. robotic
Move with the ryththm (let's go)
You know she got it
She's gonna move it
Or she might loose it
Come to california cause
She wants to get it to it

And she says

Good morning hollywood
I made it out the hood
Finally made it off the farm
Told my mama I'll be good
She told her dady she
Would be a superstar
She would make it super far
That she'd buy him a supercar
That's when she ran
Into this agent
And she said just be patient
Girl I got a special place for you
I got a role that is great for you
So he gave her lives
But the ones that you put
Don't really get
The ones that you put
Up your know
Until it fuckin bleeds it

For no particular reason
She began to start squeezin
The life out of herself
Affected her health
And now she ain't breathin
In the city of Los Angeles
Where the angeles
Came to take her
And she wanted to be famous
Now her name is in the paper
Cause you can't get into partiers
Unless your name is official
And if you ain't running
From the paparazzi
Then they will probably forget you
That's why they call the L.A. girls

Chorus:
Bathing in the california sun (L.A. girls)
Man I think I gotta get me one (L.A. girls)
There's nothing like them L.A. girls
It's hypnotic
L.A. robotic
Move with the ryththm (let's go)
You know she got it (turn the light down)

She got marijuana dreams
And cocaine nightmares
Watching as her youth
Flies by like light-years
I hear cries from a young girl

I'm for her to rise in this young world
Watch the drama uncurl
Gotta get that paper doe
Hoping that shell make it through
Scoping out the devils in the ground
That'll take her woah woah
And I been around the world
But still I know
That's why they call the L.A. girls

Chorus:

Bathing in the california sun (L.A. girls)
Man I think I gotta get me one (L.A. girls)
There's nothing like them L.A. girls
It's hypnotic
L.A. robotic
Move with the rythm (let's go)
You know she got it
That's why they call the L.A. girls

Bathing in the california sun (L.A. girls)
Man I think I gotta get me one (L.A. girls)
There's nothing like them L.A. girls
It's hypnotic
L.A. robotic
Move with the rythm (let's go)
You know she got it (turn the light down)
