I wish you happy christmas  
I do dear, I do  
I wish for you the stars, babe  
I wish for you the moon

You can sit, and you can drink your champagne  
With your gibbering goon  
I hope he's being good to you  
I do dear, I do

Ain't no whirlwind below your wing  
Wish that you will keep safe  
Up there in your leather babe  
With your ivory and (?)

Things down here are fragmatic  
In fact they've exploded all over the room  
I think everything's a little off-center, babe  
I do dear, I do

You said, that to love me you must set me free  
Now, that may all be very well  
Still I miss you baby  
More than words can ever tell

Sometimes I can not sleep  
The greatness of my hate for you  
Sometimes I can not sleep  
For I miss you

May your day be bright as the eyes  
Of the girl that I once knew  
May your sun be happy yellow, babe  
And your sky be baby blue

I miss your manic scratches  
And your howling at the moon  
Ten steps behind me  
With your dustpan and broom

I hope you wish for me  
All the things I wish for you

Health, hope and happiness  
The sun and the moon

Say hello to the one  
Who really don't have a clue  
I'll be calling you soon  
I think I love you

I do dear, I do.
