My baby she can shimmy, my baby she can shake
She knows how to wriggle like a rattlesnake
My baby she can strut, send shivers down my spine
Everybody wanna have a baby like mine

So what am I doin'
What am I doin'
What am I doin'
Standin' here singin' the blues

My baby got the fever, my baby got the fire

She can light the flame under my desire
My baby take the heat and she give it right back
Everybody oughta have a baby like that

What am I doin'
What am I doin'
What am I doin'
Standin' here singin' the blues
