I know I been a fool
A low-down selfish fool
And we've had our differences
But they mean nothing
'Cause you and I have something
That no one can take away

I see the way you're looking at me
And I know what's on your mind

Let's make love again, like we used to do
You just hold me close, I'll rediscover every part of you
Let's make love again, I know what you like
I only wanna please you, baby, you know I wanna do it
right
So let's make love again

I'm gonna change my life
Gonna leave the man I was behind
Yeah, we'll start all over once again
It's time we start trying to live like we're dying
And make every day the best we can

You know, the sun is leaving till tomorrow

But the night has just begun

Let's make love again, like we used to do
You just hold me close, I'll rediscover every part of you
Let's make love again, I know what you like
I only wanna please you, baby, you know I wanna do it
right
So let's make love again

Stirrin' in, stirrin' in, stirrin' in our bed
Kissing your lips, gently holding your head
Making the love that was lost long ago
Hold on tight, and don't let go

Let's make love again, like we used to do
You just hold me close, I'll rediscover each and every
little part of you

Let's make love again, I know what you like
I only wanna please you, baby, you know I wanna do it
right
So let's make love again

Ooh, let's make love again, I know what you like
I only wanna please you, baby, you know I wanna do it
right
So let's make love again
Let's make love again
Let's make love
