Saw a couple walking down the street
Headed to the store to buy a Christmas tree
Something about them is remembering me of us
I had to call you and say what's up
How are you doing babe
Cause I miss you babe
Don't know how I'll do without you
On this holiday

Girl I know that I walked away
I broke your heart how I wish I stayed
Now I realize this Christmas lights don't shine so bright
Now that you are gone

[Chorus:]

I don't know what to make of this emptiness
Everyone around me [?] happiness
And I need to come and fill this void on me
I really want you here on Christmas Eve
Cause all I want for Christmas is your love
I don't need money cause I have enough
There is not a gift under the tree
That can mean more than what you mean to me
And without you there is no holiday cheer
I will give anything to have you here
Maybe Santa can bring you back
This will be the best Christmas I'll ever have

I know it's hard
I need you now
Be with the one you love
It's what is all about
And it's a waste if I'm all alone
On the 25th just me and a bunch of snow
While couple are kissing
Under the mistletoe
I'm here missing
The one that makes me glow
Like a reindeer just kick me where my heart beat
Yo Saint Nick bring my baby under the tree
It's the only thing on my wish list

I've never asked for much but I really need this
I'd walk all the way to the North Pole
To bag you [?] for the girl that makes me glow
And I don't know

[Chorus]

Sleigh bells are ringing
Is that you Santa's bringing
Cause you are all I want for Christmas
And I wake up in the morning
Like a child I'll be running to the tree
I pray that my baby is waiting there for me

All I want for Christmas is your love
I don't need money cause I have enough
There is not a gift under the tree
That can mean more than what you mean to me
And without you there is no holiday cheer
I will give anything to have you here
Maybe Santa can bring you back
This will be the best Christmas I'll ever have
