Voice from the mountain
And a voice from the sea
Voice in my neighborhood
And a voice calling me
Tell me my friend my friend
Tell me with love
Where can it end it end
This voice from above

The sound on the ocean wave
And the sound in the tree
Sound in a country lane
Say can you be free
Tell me you crowd you crowd
Tell me again
Tell me out loud out loud
This sound is rain.

Tune from the hillside
And tune full of light
A flute in the morning
And a chime in the night.
I know the game again
I know the score
I know my name my name
But this tune is more.

Voice from the mountain
And a voice from the sea
Voice in my neighborhood
And a voice calling me.
Tell me my friend my friend
Tell me with love
Where can it end it end
This voice from above
