yeah
uh all the ladies on floor
yeah boy

I hate the fact that you know
I hate the fact that you know (why)
I hate that face that you know
that everywhere you go they recognize
your jeans they recognize a queen

Everybody's runnin' but they don't know
where they goin' ,
It's such a commotion right here on the flo' (dance)
You spinnin' your body the wind just makes it howl
There's one detail that's killing me I wanna know .. why

You just know it don't you know it don't cha
No chick got nothing on you
You just know it don't you know it don't cha
cause everything just comes to you
uh yeah
cut it out
what

Where the hell you been?
Oh where the hell you been?
where the hell you been, what you got yourself in
Baby filled with trouble, can you squeeze me in

Everybody's runnin' but they don't know
where they goin' , (hey girl)
It's such a commotion right there on the flo'
You spinnin' your body the wind just makes it howl
There's one detail that's killing me I wanna know .. why

You just know it don't you know it don't cha
No chick got nothing on you (yeah right)
You just know it don't you know it don't cha
cause everything just comes to you

you kiss me, I kiss her
she kiss you, you kiss me (yess)

you kiss me, I kiss her
she kiss you, you kiss me (what you drinkin' girl?)
you kiss me, I kiss her (come on your faking)
she kiss you, you kiss me
you kiss me, I kiss her
she kiss you, you kiss me
hold up..

Just got off
and I'm tryna hit --
a hole in the wall with my favourite drink
put a hole in something and tear down the frame
now who came here to paaarty?
Get it girl, go on and get wild
buss that dance, I love your style
animal ass, shawty get wild
but I love how you move your boody

Everybody's runnin' but they don't know
where they goin' , (stop)
It's such a commotion right there on the flo'
You spinnin' your body the wind just makes it howl (hey
girl)
There's one detail that's killing me I wanna know .. why

You just know it don't you know it don't cha
No chick got nothing on you (take a shot together)
You just know it don't you know it don't cha
cause everything just comes to you
don't get gassed though
