Its everywhere surrounding me, the heat of it.
It plays so deep inside, I didn't want you to-
Wake the lion that we hushed (wake the lion) to sleep
but its so tender that i don't care where it's leading me.

Last night, we got married in a taxi
I swear I loved you, yes I love you like there's no
tomorrow
and lv got no time, for second thoughts now
we got tonight and then I have to go.

oh my body shivers. (oh oh uh)
lv got this feeling of ???
Its just that someone used to stay here (she had a)
she had a fear of getting close to the fire.
Ohhh its gonna break me heart, i know it.

I'm at sea now, Im falling, baby,

Last night, we got married in a taxi
I swear I loved you, yes I love you like there's no
tomorrow
and lv got no time, for second thoughts now
we got tonight and then I have to go.

Last night, we got married in a taxi
I swear I loved you, I love you like there's no tomorrow
and lv got no time, for second thoughts now
we got tonight and then I have to go.
