You know I've always got your back, girl  
So let me be the one you come running to, running to, r-r-running  
I said it's just matter of fact, girl  
You just call my name  
I'll be coming through, coming through, I'll get coming

On the other side of the world, it don't matter  
I'll be there in two, I'll be there in two, I'll be there in two  
I still feel it every time  
It's just something that you do  
Now ask me why I want to

It's everything about you, you, you  
Everything that you do, do, do  
From the way that we touch, baby  
To the way that you kiss on me  
It's everything about you, you, you  
The way you make it feel, new, new, new  
Like every party is just us two  
And there's nothing I could point to  
It's everything about you, you, you  
Everything about you, you, you  
It's everything that you do, do, do  
It's everything about you

Yes, I like the way you smile with your eyes  
Other guys see you but don't realize that it's m-my loving  
There's something about your laugh that it makes me wanna have to  
There's nothing funny so we laugh at n-n-nothing

Every minute's like our last so let's just take it real slow  
Forget about the clock that's tick-tick-ticking  
I still feel it every time  
It's just something that you do  
Now ask me why I want to

It's everything about you, you, you  
Everything that you do, do, do  
From the way that we touch, baby  
To the way that you kiss on me  
It's everything about you, you, you  
The way you make it feel, new, new, new  
Like every party is just us two  
And there's nothing I could point to  
It's everything about you, you, you

Everything about you, you, you  
It's everything that you do, do, do  
It's everything about you

And you have always been the only one I wanted  
And I wanted you to know without you I can't face it  
All we wanna have is fun  
But they say that we're too young  
Let them say what they want

It's everything about you, you, you  
Everything that you do, do do  
From the way that we touch, baby  
To the way that you kiss on me  
It's everything about you, you, you  
It's everything that you do, do, do  
Like every party is just us two  
And there's nothing I could point to

It's everything about you, you, you  
Everything about you, you, you  
It's everything that you do, do, do  
It's everything about you
