No matter what this life may hold,  
You know I'll never be alone.  
And even if I have to go, you'll always be in heart,  
I will keep you in my mind till the end of time.  
I will come back home.

I don't want to go away, along this open highway  
I'm turned around looking back, with the rain dripping  
down the glass  
I press my hands to the window , I yell "I'll never let you  
go"  
But you're fading farther away

[Chorus:]  
This goodbye is not forever  
There's nowhere else I'd rather be  
Than Next to You, Holding you  
I'll stay Next to You

Life goes fast as time goes by  
Worlds apart yet you're still on my mind  
And I will never forget you

I know now someday somehow  
It's meant to be, I'll see you again  
We both know we'll never be just friends  
But you're fading further away

[Chorus]

You changed me  
You're so damn amazing  
I forget what I was like before you came into my life  
Please wait for me  
I'll be back you'll see  
It will be like before, a gentle knock on your door

You know that...

[Chorus]

A knock on your door,

See your face once more  
I'll stay Next to You
