Safe from them all
Those evil little mother fuckers at my door
Yeah, well I've kept score
And I believe they owe me more
Than life is short

Do you remember when
Nobody knew me
Man was life so simple then
But you knew my name
And Lords knows it will
Never sound the same again

[Refrain]
I will stay with you
I will stay with you
I will stay with you
How I needed you
How I needed you
How I needed you

I needed you
I needed you
I needed you

Well, a long time ago
That night we had,
Was my only claim to fame
Yeah, we were only friends
And girl you took away from us our happy end

[Refrain]
So I will stay with you
I will stay with you

I will stay with you
How I needed you
How I needed you
How I needed you

You've taken from me everything in the world
I needed you [x4]

I hate you more than I hate
Everything in the world
Well I do, I said I do
You've taken from me everything I deserve
Well it's true, yeah it's true.

I hate you more than I hate
Everything in the world
Well I do, well I do
You've taken from me everything I deserve
Well it's true, well it's true.

You've taken from me everything in the world
I needed you [x4]

[Refrain]
I will stay with you
I will stay with you
I will stay with you
How I needed you
How I needed you
How I needed you
