So it's all been said
No point in telling you all the rest
You've seen it on the TV and in the press
They couldn't wake him up and so
They covered his face

It's the lonely murder
The boy is gone forever
A place for him in the nether
All in a single day

So now we'd like to say
What a wonderful guy he was and not to blame
The truth is what we didn't have to explain
He couldn't loosen up and he
don't want to lose face

It's the lonely murder
The boy is gone forever
A place for him in the nether
All in a single day
