We sat underground  
And I've just lost the found  
Years speak when sound's asleep  
They smile when you're around

We'll pass the time where the clocks

Unwind  
And the days have no name

Without rhymes

So what do you give to ghosts and lonely kids  
Yeah what will we do with our

Time if you do not find a thing about me

Then we'll see  
Round and round the clocks slow down  
Still the joke's on me

We sat in the sound  
The ghosts the clocks the rhythm  
And the rhymes  
We found the years  
The days were clear  
It's just relentless now
