I made it to the city lights
Before they took over my life
And that's the only one I got
Now they gonna make me despair,
They'll make me pay for the air
And that's the only one we've got

Ooooh Ooooh Ooooh

They want to make you believe
You're something they can't see
But all you need is to think
And then

Something tells me everybody hates me
But what you've go to do it right
When you know
When you know
When you know

I made it throught my very first night,
Showed only one person the light
It must have been quite a sight
The man was not so debonair
I told him how we should unite
Get together and fight
'Cause we're the only ones who care

He told me he didn't believe
We're all owned by crooks and thieves
And so I bought him a drink
And then

Something tells me everybody hates me
But what you've go to do it right
When you know

When you know
When you know
