I heard your song on the radio,
Tried to sing along, but I didn't know...
Half of the words... How does it go?

I sure think we would make a real cool pair,
You could sing your songs, I could sit and stare,
And fall in love... in love with Liz Phair

You sang a song with Bent Lee...
How about singin' with me?

You look real pretty in your video,
and you write better songs than anyone I know,
Me and you should go to the big black show...

Or maybe I could just meet you there?
I'm getting sorta cool, but mostly I'm a square,
I'd rather get around, around to Liz Phair...

I don't want nothing physical, but I sure think you're
cool...

...sang a song with Bent Lee,
How about singin' with me?

Your records always in my stereo,
I never turn it off, I never play it low,
You're the greatest thing in rock n' roll...

I sure think we would make a real cool pair,
You could sing you songs, I could sit and stare,
And dream about you... dream about Liz Phair,
dream about Liz Phair, dream about Liz Phair,
dream about Liz Phair yeah!
