(You really) Rock Me

Take them for the ride  
Let them feel the energy you can provide  
Roll it through the times  
Make it feel like real emotion this time around

You're so physical very intellectual  
Can't stop asking why  
Running with the changes I'm a social institution  
Don't stop driving them wild, wild, wild

(You really) rock me

Touching with your eyes  
Make contact for the moment  
Where you think you'll survive  
Take them for the ride  
Although young  
Tomorrow wants to know your surprise

(You really) rock me
