Well, did you honestly think for a second we'd played
our final song? woah
In spite of those who disagree, you know it feels damn
good to prove you wrong!
Singin' woah-woah, we did it somehow,
And woah, It's our turn now.
We'll shut you down, you'll drown like the rest of them.
Need I remind you that you're up against the best of
them?

So let me promise you this, with ignorance as your
bliss,
Your name won't ever be missed when we are through
with this!
I'll be the thought that's in the back of your head,
We'll be the monsters hiding under your bed.
I'll make you pay for all the things that you said
And use your own line to cut off your fucking head!

I thought I told you once that you reap what you sow,
But I guess this time around I'll say I told you so.
Now that was clever, but let me make this clear
We are coming for you, we are coming for you!

Tell me why they painted us with guilt?
They said that we're not good enough?
The only thing we're guilty of is never giving up!
So take a second glance and put yourself into these
shoes,
We got a second chance and we've got nothing left to
lose.

So keep singing!
Ohhh, whoaaa. Ohhh! Ohhh, whoaaa. Ohhh!
So keep singing!
Ohhh, whoaaa. Ohhh!
So take a second glance (ohhh, whoaaa. Ohhh!)
And put yourself into these shoes.
We got a second chance and we've got nothing left to
lose.
