

## Woe Is Me "Windows"

Visit "[Windows](#)" on MotoLyrics.com

How can we bridge the path from dark to light  
If we live like the rest of them?  
Can we portray his love?  
We are the Window  
What we do is for you  
Can we be your hands?  
Burn these walls to the ground!

Let your light shine through this veil of darkness  
Burn these walls!

Let your light shine through  
Cause we are the Window  
We must set our own hearts  
Straight to lead the weak  
We give ourselves to you oh Father  
To see the truth within in your hands  
Oh God take it all  
Fill my lungs  
Give me life  
We were hollow men  
We were hollow men
