Oâ€™ s//Can you tell me honestly what I’m doing
wrong/I get caught up in fear and feel as if I’m not
strong/enough to love/enough to be someone who
loves you/ enough to love/ enough to be someone
who’s there//I’ll hold another arm/create some
charm/if I could speak my mind/would you give me the
time/even if you deny this dance/love never has a last
chance//oâ€™ s//are we speaking in different tongues
/there’s no air in my lungs/please explain to me
how I’m still alive/breath some air so I can thrive//
I’ll hold another arm/ create some charm/if I could
speak my mind/ would you give me the time/even if
you deny this dance/love never has a last
chance//oâ€™ s//why do we keep everything bottled
up/lets end this streak of bad luck/we’re treading
the currents/trying to stay afloat/sometimes we
clash/but we hold on so it lasts//I’ll hold another
arm create some charm/ if I could speak my mind/
would you give me the time/I’ll hold another arm
create some charm/if I could speak my mind / would
you give me the time/even if you deny this dance/ love
never has a last chance/never has a last chance/love
never has a last/ chance/ never has a last/chance //
