Humming//I can't smuggle my hopes/ I can't dampen my desire/I thought at one point I was close/I had only one iron in the fire/maybe I need to fall down/maybe I need to bleed/maybe the fortunes hiding/and all I need is a lead//when you dive in/risky business/you may never come up/when you dive in/ risky business/hold on to all of your hopes/hold on to all of your hopes//have I been wasting my days/climbing up the ladder/is there a reason why I'm here/sometimes I feel it doesn't even matter/maybe I need to wake up/maybe I need to see/that this isn't for everyone/is it for me//when you dive in/risky business/you may never come up/when you dive in/ risky business/hold on to all of your hopes/hold on to all of your hopes//I didn't come here to please everybody/I can't believe that I've come this far/all I want is someone who will listen/as I pour out my heart//when you dive in/ risky business/you may never come up/when you dive in/risky business/hold on to all of your hopes/hold on to all of your hopes/we need to hold on to all of our hopes/ we need to hold on to all of our hopes/we're gonna hold on to all of our hopes/ you know you know you know you know where holding on/ we keep holding on/ we keep holding on on on on/ yeah we need to hold on/ hold on yeah//
