Everything goes and goes,
You run around in circles,
Is that one you want?
You don't need
Such a fake freind
Giving you something unreal
Live with your natural joy, with your natural beat
Just let it go that's the truth
And find a real you
Just do it, just do it
Say,say,say,say....

Uhhh! That's it! I had enough!
Uooo! That's it! I had enough!

When everyday seems the same
Don't forget that you can change yor way.
But you don't need such a big round,

Giving you something unreal
Live with your natural joy, with your natural fear
Just move it out of your way,
And be a real you again
Just do it, just do it!
Say,say,say,say...

Uhhh! That's it! I had enough!
Uooo! That's it! I had enough!
That's it! I had enough!
That's it, that's it!
I had enough! lhad enough!
I had enough!
That's it!
I had enough!
