Can you stay without a phone?
Can you be without TV?
I'm tired of this useless entertainment
But no one seems to see what I... I see.
Still your eyes tell me that you're with me,
But we lost communication, we lost communication,
We lost communication, we lost communication,
We lost, we lost the words.

Don't you see this plastic people
Through in up in front of us
I'm tired of this useless entertainment,
No one seems to see what I... I see.
Still your eyes tell me that you're with me.

But we lost c
omunication, we lost communication,
We lost communication, we lost communication,
We lost, we lost the words.

(solo)

Don't you see this plastic people
Through in up in front of us
I'm tired ot this useless entertainment,
No one seems to see what I... I see
Still your eyes tell me that you're with me.

But we lost communication, we lost communication,
We lost communication, we lost communication,
We lost communication, we lost communication,
We lost communication, we lost communication,
We lost, communication.
We lost, we lost words.
