You hurt me and you burned me and you took me and
turned me
Into a broken down wild stallion
My cryin' and your lyin' and your constant denyin'
Yea I lived it till the moment you were bailin'

Now I'm dancin' on air,
I do crazy things and I don't give a care
I'm happy and finally I'm running free
Thank you for cheating on me

He's cuter and he's smarter
And he works a lot harder
And he's actually got a real job
My family and my friends all love him
Can't get enough of him
He's such a drop-dead heartthrob

Now I'm dancin' on air,
I do crazy things and I don't give a care
I'm happy and finally I'm running free
Thank you for cheating on me

When you see me out with him one night
You gotta kick yourself where the sun don't shine
And I'll be laughing at you the whole time

Now I'm dancin' on air,
I do crazy things and I don't give a care
I'm happy and finally I'm running free
Thank you for cheating, lovin' and leavin'
Thank you for cheating on me
