Mean in two mean  
World another day in just love  
Noodled in around the chest in palpable  
Pressure in collaboration inside  
The world in cone box  
Creator in waters and ices  
Where in cube have becoming jump  
Only will tell dust in the sky  
Give me rest of the handled in poisoned  
About in wax on wax the letter  
Martini splashed and three  
Failure the feminine and shapeless formed  
Joint in world and cloth between the lines  
We are deserts affliction in water  
The starts in hopeless of icicles  
Fries in creationism  
In face breaks the stick time  
This day in mine  
Stay brain the inside  
Calligraphy the filthy what in vise
