"Let Me Out"

I found some peace today
I grit my teeth
And swallow all my pain and selfish pride
I use to hide behind

[Chorus x2:]
Let me out, let me out I'm singing
Let me out, let me out I'm singing
I'm a liar and a cheat in prison
Accused of telling the truth

Flames of pain stained paint my eyes
Child I've lost this face won't lie
Time burns my souls decay grey
Sifting through the smoke and lies
Swimming exhale our love that's died
First and last ain't ever the same, so I'll keep on singing
this
I don't care if you're right or if I'm always wrong
Just want to sing my song before this whole world

[Chorus X2]

[Bridge:]
Now and forever
I stand to sever all ties and connections with
recollections of pain or fear
Family, society, authority and every peer
Swallowing tears, lie in my stomach
I'm getting free-er every second eroding and
exploding
All these corporate deceptions right here I'm...

Metal prison bars block our minds
Youth's truth sold and televised
I never bought it and I won't play your games, for fame
Are we just rats in a piper's tune soothed,
Scraping for cheese in a maze made to lose
No, I'm not and I won't eat your food... Subdued
I don't care if you're right or if I'm always wrong,
Just want to sing my song before this whole world

...GONE

[Chorus (repeat 1 and a half)]

I'm out... out [x4]
