If I told you how I feel
If I told you what I hold inside
If I told you only half
Of the feelings that I try to hide
If I told you you're my friend but
If I told you that it won't suffice
If I told you all I ever needed
If I told you it was you

If I told you you were beautiful
What would you say to me?
If I said that you were beautiful
What would you do?
And if I told you how I feel right now
Would you stay with me
Or would I be out of line?
Or would I be out of line?

If I told you I'm afraid
If I told you I can hardly breathe
If I told you all I need
If I told you all I need is you
If I told you in the sun
And if I told you with this lovely melody
If I told you all I want
If I told you all I want is you

And if I told you you were beautiful
What would you say to me?
If I said that you were beautiful
What would you do?
And if I told you how I feel right now
Would you stay with me
Or would I be out of line?
Or would I be out of line?

If I don't speak it out loud
Would you even notice?
If I don't speak it out loud
Would it leave me hopeless?
If I told you right now
Would I be out of line, out of line?

If I told you how I feel
If I told you what I hold inside
If I told you only half
Of the feelings that I try to hide
If I told you you're my friend but
If I told you that it won't suffice
If I told you all I ever needed
If I told you it was you

And if I told you you were beautiful
What would you say to me?
If I said that you were beautiful
What would you do?
And if I told you how I feel right now
Would you stay with me
Or would I be out of line?
Or would I be out of line?

If I told you...
