I don't understand, why you gotta please em
We weren't holding hands? Shawty now you're teasing
I was meant for you, and you were meant for me
So baby let it be

When we're alone, I know your hearts racing
When we're on the phone, You're loving all this chasing
I won't let you go, cause I'm here for you
And that's something that you should know

We can always try something new
Together baby, there's nothing we can't do
Cause we always find
So much games to play

Together we're unstoppable
Come on honey lets take over the world
Cause we always find
So much games to play

So you kid around
We say everything we want without making a sound
We just got that great connection, showing our love
and affection
Heading in the right direction, they can't stop us now

Lets hit theme parks and have water fights
You say you wanna show me moves
We're both wearing dancing shoes
So why don't we just dance tonight

We're here and it feels so right
Tell me that you feel it too

We can always try something new
Together baby, there's nothing we can't do
Cause we always find
So much games to play

Together we're unstoppable
Come on honey lets take over the world

Cause we always find
So much games to play

So come on lets run through the night
Stars above shining so bright
We're heading straight up to the moon
So make sure that you hold on tight

Trust me I got you
And I won't let you fall
(I won't let you fall, no I won't let you fall)

Let's laugh until we start to cry
Staring in each others eyes
Feeling so darn numb with love
But nothing short of mesmerised

This is only where we start, it's the beginning
Can't wait for us to level up, and start winning
(We can always try something new, new, new
So much, so, so, so much games to play)

We can always try something new
Together baby, there's nothing we can't do
Cause we always find
So much games to play

Together we're unstoppable
Come on honey lets take over the world
Cause we always find
So much games to play
