I V

Let her go, let her go, God bless her

I V

She's mine everywhere she may be

I V

She may ramble this wide world all over

I V I

But she'll never find a friend like me

I went to church last Sunday

I saw my old love there

And I knew her mind was a'changin'

From the way that she done up her hair

chorus

I'm going to the races

To see my pony run

And if I win any green back

We're surely gonna have some fun

chorus

Sometimes I live in the country

Sometimes I live up town

But sometimes I take a great notion

To jump in the river and drown

chorus
