Does it take you by surprise  
This time's gone for real?

Does it make you realize  
This time's gone for real?

Alright Alright  
No deal...

Gotta take a little time  
And make her smile a little

Get the moon and make it shine  
Move up and down to please her

Alright Alright  
No teasers...

Alright Alright  
No No teasers...

And she's real gone...

When you're feelin' kinda wild,  
Alone, unsatisfied,  
It's time to make it good to yourself...  
Be yourself

After five the field's alive,  
C'mon it's a free ride.  
Tonight she'll be a lady...

But... This time you should make it good

(C'mon Little Joe...)

Make your move before the dawn  
And rid your mind of riddles...

Keep on rollin' till you're done  
And shake your bones a little...

Showdown Showdown  
No needles...

Showdown Showdown  
No No needles...

Are you comin' back for more?

When you're feelin' kinda wild,  
Alone, unsatisfied,  
It's time to make it good to yourself...

After five the field's alive,  
C'mon it's a free ride.  
Tonite she'll be a lady...

But... This time you should make it good

When you're feeling kinda wild,  
Alone, unsatisfied,  
Spend a little time on yourself...  
Be yourself

When a little ain't enough,  
Who's gonna take it off

When you're feelin' kinda wild,  
Alone, unsatisfied,  
Ain't nothing like having a good time, yeah

After five the field's alive,  
C'mon it's a free ride.  
Tonite she'll be a lady...

C'mon it's a free ride!  
But... This time you should make it good

Dream on...  
We're gonna have a good time...

But... This time you should make it good
