I know that you've been searching
And I hope you'll find that star
Wish, I knew, why you've been hurting
Hope you find out who you are

You can run the whole world over
But when your searching days are through
Beyond the blue horizon
I'll be waiting there for you

I know you're always waiting
But for what you ain't so sure
And you know my heart is aching
No one else could love you more

You can walk a million highways
But when your travelling days are through
Beyond your new tomorrow
I'll be waiting there for you

I don't know if you'll be happy
Or if you'll fall for someone else
You've gotta find out
Find out for yourself

You could roam the streets forever
But only one thing will be true
When your life has turned full circle
I'll be waiting there for you

When you life has turned full circle
I'll be waiting there for you
