La, la, la, I love ya, just holler
It means that I love you!
That's true story versus mine!
And listen carefully babe!
La, la, la, as a matter of fact it's real talk, honey!
It means that I love you!
I love you!
Here we go, it's your boy hoodstar!
It means that I never let you go, girl!

I love you, you love me...
Cause they can't stop what we got,
They can't shot what we shot, or cut what we cut,
They say don't trust, he a rapper!
... the next time you hear that bullshit, just slap him!
Tell him you're crazy, you know my baby
... bonny and clyde like bee and jay-z!
Before the rapping, before all the...
Before the light camera action, he was back then,
So with louis talking to you, not hoodstar
You love me for me and not for my new car,
... my heart beat, these things that tell ya,
Without you, that's my body acapela.
This sis it, my song to you,
Now run and tell your friends my verse belongs to you,
True story!

Chorus:

La, la, la, I love ya, just holler
It means that I love you!
That's true story versus mine!
And listen carefully babe!
La, la, la, as a matter of fact it's real talk, honey!
It means that I love you!
I love you!
It means that I never let you go, girl!

I'm obsessed, I know you like...
They're just... I choose the best, I never settle for less,
I must say, you got impeccable taste!
Flossy, bossy, gotta a hell of a face,

And you? you take the kick, the sex is insane,
That's why I take the pain
And when we finish, what's your major pain?
We're stupid as... that's why we get off the...
You know I can't control my temper, get... on you,
Fuck with you, nigger I fuck with you!
Can't do... picnics for two,
And damn, just think, you picked me for you!
Out of everybody in the world, I'm your girl,
I can see me in a white dress and some pearls!

Chorus:

La, la, la, I love ya, just holler
It means that I love you!
That's true story versus mine!
And listen carefully babe!
La, la, la, as a matter of fact it's real talk, honey!
It means that I love you!
I love you!
It means that I never let you go, girl!

The reason I love you, squeeze you, please you,
Cause you help me get...
I was on a... hand in hand with the...
Wasting all my money with a...
Kinda hoping I'm on my...
You gave me the greatest gift just like a brand new...
And that's priceless, and I ain't got to make it...
I'm just happy to be here reciting my life,
... and it's still good!
It feels good,
... so if I don't go palatine, I'm back at the studio...
So what...
I like the life when I'm a...

Chorus:

La, la, la, I love ya, just holler
It means that I love you!
That's true story versus mine!
And listen carefully babe!
La, la, la, as a matter of fact it's real talk, honey!
It means that I love you!
I love you!
It means that I never let you go, girl!
