Kamen/Andersen/Guirey

Yesterday was like any other day
My work is so gruelling
Morning noon and night to make ends meet

Sun beats down, sweat's rolling off my body
We've got to see through this
I'd rather spend my days alone with you

(I really, really, really love you) I really love you
(I need your body, soul and mind) Body, soul and mind
(I really, really, really want you) It's gonna be alright

Open your mind to a place you can find
Love is a pure understanding
Closing your eyes take my hand reach the sky
Together I know we can make it

Late at night I check the news on the t.v.
I pray for the future
Why can't we make our dreams reality

Sit right here and talk to me
I think I know how your feeling
I'd listen to you anytime of day

(I really, really, really love you) I really love you
(I need your body, soul and mind) Body, soul and mind
(I really, really, really want you) It's gonna be alright

Open your mind to a place you can find
Love is a pure understanding
Closing your eyes take my hand reach the sky
Together I know we can make it

We can make it

(I really, really, really love you) I really love you
(I need your body, soul and mind) Body, soul and mind
(I really, really, really want you) It's gonna be alright

Open you mind to a place you can find
Love is a pure understanding
Closing your eyes take my hand reach the sky
Togheter i know we can make it

We can make it
We can make it
