On a sailing ship to nowhere  
You're here by my side  
We're not alone  
Just on our own  
With nothing left to hide  
Oh it all looks very clear  
Oh you and I are here  
It's you I hold  
It's you I told  
There's no one else who knows  
I'd lie for you  
I'd die for you  
Together we can grow  
Oh - it all looks very clear  
Oh - you and I are here  
All my life you know I could  
Have kissed you  
Many times I tried  
But you weren't there  
I had to hide  
I really missed you  
In my life you know  
I'll never leave you  
Every time I try  
I close my eyes and realise  
How much I need you  
I see you  
You're right in front of me  
So take me  
I trust you  
You're where I want to be  
Oh - it all looks very clear  
Oh - you and I are here  
(Repeat)  
You and I  
You and I  
You and I are here  
Repeat and fade
